

Remote Sensor Head Option

R10

The Remote Sensor Head Adaptor Kit is designed to allow the sensor head to be located up to 14 metres away from the Series 300 or 500 Monitor.

- Ergonomically designed
- Interfaces with Series 300, and Series 500
- Simple plug & play solution

Remote Sensor Head Option

R10

Specifications

The remote sensor head option allows the sensor head to be located remotely from the monitor. The R10 should be used when there is a requirement to measure ozone in an environment where the user does not wish to be present.

Remote Adaptor Base:

Adaptor base diameter: 130 mm

Height with Sensor: 64 mm

Remote Cable:

2 m Standard Cat 5 cable, RJ45 connectors

Maximum distance using Standard Cat 5 cable: 14 m (greater distances can be achieved by using different cable)

Remote Sensor Head:

Minimum voltage supply at head 11 VDC
